

# Post Disaster Safety Evaluation of Buildings

ATC-20 Post-Seismic Safety Evaluation of Buildings

ATC-45 Post-Flood and Wind Safety Evaluation of Buildings

Post-Fire Safety Evaluation of Buildings

April 5, 2010

Please join us for a class on emergency response. This course is unique in that it covers safety evaluations after multiple types of disasters.

## Seminar Schedule:

8:30 – 9:30	Introduction of NCSEA and SEAIOI's SEER Program, ATC, and Urban Search & Rescue (by Scott Nacheman)
9:30 -10:15	ATC-45 and ATC-20 Introduction and Overview
10:15 -10:30	Break
10:30 – 11:00	ATC-20 (Seismic Assessments)
11:00 – 12:00	ATC-45 (Wind Assessments)
12:00 - 1:00	Lunch
1:00 - 1:30	ATC-45, Wind Case Study Examples
1:30 - 2:00	ATC-45, Flood with Case Study Examples
2:00 - 2: 45	Fire
2:45 - 3:30	2 Wrap-Up Case Study Examples

The instructors for the course are Chad Fischer and Scott Nacheman, both of whom have extensive experience in emergency assessments. Mr. Fischer, S.E., P.E. is a Senior Consultant at Engineering Systems Inc., an engineering firm specializing in emergency structural assessments and stabilizations, investigations, and repair designs. Mr. Nacheman is a Vice President in the Chicago office of Thornton Tomasetti.

This course qualifies for 6.0 hours of continuing education credit, including AIA/CES credit. A continental breakfast will be served at 8:00 and lunch is included in the registration fee.
