

Halcrow Yolles is globally recognized as one of the premier consulting engineering practices in the design of infrastructure and buildings. Our renowned teams of engineering professionals have been responsible for the design of many of the world's most iconic structures, utility plants, and transportation corridors as well as for the preservation and expansion of numerous historical landmarks. With a culture that is both value centered and performance driven, we offer our staff exciting opportunities, challenging projects, as well as the opportunity for development and career growth.

As a member of our North American team, you will not only have the opportunity to work with some of the brightest minds in our industry, but will be able to play a role in structural design and analysis roles that produce deliverables and have a true impact on projects worldwide.
