SEAOI at DuPage Area STEM Expo

The Structural Engineers Association of Illinois (SEAOI) is proud to participate in the DuPage Area STEM Expo on Saturday, February 22, 2020 from 10:30 am - 3:30 pm at Illinois Tech Rice Campus, located at 201 East Loop Road, in Wheaton, IL.

You are invited to join us for an interactive exploration into science, technology, engineering and math. Over 50 displays, presentations, projects to take home and activities for school age children, grades K – 12.

The DuPage Area STEM Expo, in conjunction with national Engineers Week, is a specialized event designed to promote the awareness of professional and educational opportunities provided among engineering and STEM (science, technology, engineering and math).

SEAOI will have many interactive exhibits available for budding young engineers and their parents. We will once again host the standing room only SEAOI exhibit space, featuring structural engineering models and 'toys' that provide an enriching hands-on practical application of structural engineering principles.

For even more insight into the world of structural engineering, plan on attending the presentation by structural engineer Larry Novak: From Legos to Skyscrapers. Mr. Novak will explore the wonderful world of skyscrapers to inspire the next generation to greater heights. Attendees will also have a chance to build their own Lego tower and compete with other teams to see how well the towers would survive an earthquake.

The Expo is open to the public and free of charge. For more information about the Expo, please visit the [IIT website](#).

The Structural Engineers Association of Illinois (SEAOI) was founded in 1965 by practicing structural engineers to advance and advocate excellence in structural engineering and to aid in safeguarding the lives and property of the public. SEAOI's Mission is to champion excellence for its members in the practice of Structural Engineering. SEAOI contributes to the expansion of the art and science of structural engineering by offering education, outreach and networking opportunities to members and the public living and working in Illinois.
